Capstone: Ship a deployed, real-world AI application

Guided by mentors from real-world data science teams

01

Industry-Aligned Curriculum

Learn the exact tools — TensorFlow, Scikit-Learn, Transformers — powering today's production AI and data systems.

02

Hands-On Projects

11 real-world projects, from ML pipelines to computer vision and NLP, built into a portfolio-ready capstone.

03

Mentor-Led Learning

Small cohorts guided by practitioners who ship data science systems in production, not just theory.

04

Career Support

Dedicated interview preparation and placement assistance as part of the capstone module.
