Capstone: Ship a deployable full stack product

Guided by mentors from real-world product teams

01

Industry-Aligned Curriculum

Learn the exact stack — Python, Django, Flask, React — powering today's production web applications.

02

Hands-On Projects

10 real-world projects, from REST APIs to full React front ends, built into a portfolio-ready capstone.

03

Mentor-Led Learning

Small cohorts guided by practitioners who ship full stack products, not just theory.

04

Career Support

Dedicated interview preparation and placement assistance as part of the capstone module.

WHO IS THIS FOR

Beginners, career switchers, and developers who want to build and ship complete web applications.

FORMAT

6-month live online program with weekly sessions, projects, and 1:1 mentorship.

OUTCOME

A deployed full stack product and interview-ready portfolio by graduation.
