**Capstone: Ship a production-ready AI agent**

Guided by mentors from real-world AI product teams

01

## Industry-Aligned Curriculum

Learn the exact frameworks and protocols — LangChain, LangGraph, MCP — powering today's production AI products.

02

## Hands-On Projects

8 real-world projects, from RAG pipelines to multi-agent systems, built into a portfolio-ready capstone.

03

## Mentor-Led Learning

Small cohorts guided by practitioners who ship AI systems in production, not just theory.

04

## Career Support

Dedicated interview preparation and placement assistance as part of the capstone module.
